*Bivalent COVID Booster was developed to provide protection against the COVID-19 original strain & the Omicron variant.*

**Bivalent COVID Booster Eligibility:** Age 12 & up.

Recommended to wait 6 months from last dose or COVID infection. However individuals at increased risk can get the bivalent vaccine 3 months after last dose or COVID infection.

Must have primary vaccine series (usually 2 doses)  
before receiving the bivalent booster vaccine.

**Complete COVID eligibility criteria visit:** [protectmb.ca](https://protectmb.ca)

**Bring your Manitoba Health Card**
